WORK EXPERIENCE

Universitas Gunadarma – Kota Depok

Jan 2022 – Sep 2026

Laboratory Assistant

- Served as instructor, host, and assistant for introductory JavaScript & HTML workshops for 20–30 participants per batch, achieving a 100% success and completion rate through a hands-on approach and direct technical guidance during practice sessions.
- Provided IT support for LSP (Professional Certification Body) competency assessments across multiple study programs, preparing and configuring 35–40 devices according to assessment schemes, and resolving software/hardware issues in real time for 20–40 participants and assessors without disrupting the assessment process.
- Led the open recruitment of new laboratory assistants as Project Lead, coordinating 16 committee members and designing the selection process, successfully recruiting 21 new assistants through a systematic and transparent process.

Badan Pusat Statistik (BPS), Jakarta

Aug 2025 – Jan 2026

Full Stack Developer (Project-Based) — Data Matching & Reconciliation System

Tech Stack: PHP (Laravel 12), React 18, Inertia.js 2.0, SQL Server, Tailwind CSS, Vite 6, PHPUnit, Chart.js

- Designed and developed a large-scale data reconciliation web application for matching census (PES) and registration (GB) data, including database schema design and comprehensive testing to ensure result accuracy prior to data export.
- Optimized application performance through SQL query restructuring, indexing, and Eloquent eager loading to eliminate N+1 query bottlenecks, and built a PHP Traits-based audit trail system to log user activity in support of compliance and security requirements.
- Developed an interactive reporting dashboard using Chart.js with PDF and Excel export features, along with responsive React forms featuring real-time validation to improve user administration efficiency.

Frontend Developer (Project-Based) — Web Scraper Management System

Tech Stack: Next.js 16 (App Router), React 19, Tailwind CSS 4

- Developed the interface for a Web Scraper Management System to monitor and configure e-commerce data extraction across 6+ platforms, featuring an interactive analytics dashboard for scraping metrics such as success rate and data volume.
- Implemented state management with the React Context API to manage multi-stage scraping configurations, and built client-side authentication with role-based access control (RBAC) to secure access to administrative features.
- Built modular, reusable UI components (pagination, search, modal forms) to support CRUD operations and improve frontend maintainability.

Jatimelatibulogtiga, Jakarta

Dec 2025 – Mar 2026

Full Stack Developer & Database Engineer (Project-Based) — Jatimelati Bulog Tiga Community Fee Management System

Tech Stack: PHP (Laravel), Laravel Blade, MySQL, JavaScript, Tailwind CSS, Payment Gateway

- *Full Stack Developer & Database Engineer (Project-Based) — Jatimelati Bulog Tiga Community Fee Management System*
Tech Stack: PHP (Laravel), Laravel Blade, MySQL, JavaScript, Tailwind CSS, Payment Gateway
- Designed and developed the MySQL database infrastructure to support the management of resident data, community fees, bills, and payment history, including table structures and relationships.
- Processed and transformed raw client data into the designed database structure through data cleansing, mapping, validation, and import processes to ensure data consistency and accuracy.
- Developed frontend and backend features using Laravel Blade and Laravel to support the management of resident data, community fees, bills, and payments, while integrating the application with the MySQL database.

- Integrated a payment gateway into the system to enable digital community fee payments, including transaction flow management and payment status recording within the system.

PROJECTS

E-Commerce Customer Churn Prediction using XGBoost & SHAP

Apr 2026 – May 2026

Tech Stack: Python, XGBoost, SHAP, Pandas, Scikit-learn

- Built a customer churn prediction model using an e-commerce dataset containing 48,140 customers with a 43.86% churn rate, following the CRISP-DM methodology from data understanding through model evaluation.
- Achieved a Recall of 0.929 and ROC-AUC of 0.979 using XGBoost, selected after comparing its performance against Random Forest.
- Implemented SHAP (TreeExplainer) for model explainability, identifying customer duration, frequency, and customer lifespan as the key churn drivers, generating actionable insights for customer retention strategies.

EDUCATION

Gunadarma University, Kota Depok

Sep 2022 – Aug 2026

Bachelor of Science, in Information Systems

GPA 3.95 of 4.00

Honors: Cumlaude

ACHIEVEMENTS

Unlimited Software Building (USB), Universitas Gunadarma, Kota Depok

Nov 2024

2nd Place – Data Mining Competition (Data Mining Implementation)

KJMU (Kartu Jakarta Mahasiswa Unggul) Scholarship Recipient, Jakarta

Sep 2022 – Oct 2026

Recipient of a full scholarship (tuition fee coverage) for 8 semesters, awarded by the DKI Jakarta Provincial Government

LEADERSHIP ACTIVITIES

Laboratory Assistant Recruitment, Universitas Gunadarma, Depok

Oct – Dec 2024

Recruitment Team Lead

- Led and coordinated a team throughout the entire open recruitment process for laboratory assistants.
- Managed recruitment planning, including the preparation of documents, publication materials, and the selection process.
- Organized timelines and activity schedules to ensure the process ran effectively and on time.
- Conducted candidate evaluation and assessment as part of the selection team.

CERTIFICATIONS

National Professional Certification Agency (BNSP)

2026

Data Analyst Certification (Competent)

LANGUAGES

Bahasa Indonesia (Native), English (Active)

TECHNICAL SKILLS

- Data Science & Machine Learning: Python, XGBoost, SHAP, Pandas, Scikit-learn, Jupyter/Google Colab, EDA, Data Cleaning & Transformation, Statistical Analysis
- Web Development: PHP (Laravel), React, Inertia.js, JavaScript, Tailwind CSS
- Database: SQL, MySQL, Microsoft SQL Server
- Data Visualization: Power BI, Looker Studio, Chart.js
- Tools: Microsoft Excel, Git/GitHub

ADDITIONAL SKILLS

- *Statistical Analysis, Data Mining*
- *Problem Solving, Analytical Thinking*
